Security Services for SuperMassive 9000 Series Solutions

Product		Part Numbers	Description
Comprehensive Gateway Security Suite		For SM 9200 (2 Years/3 Years) 01-SSC-4173/01-SSC-4174 For SM 9400 (2 Years/3 Years) 01-SSC-4137/01-SSC-4138 For SM 9600 (2 Years/3 Years) 01-SSC-4101/01-SSC-4102 <i>Note: TotalSecure solutions ship with one year of CGSS included</i>	SonicWALL Comprehensive Gateway Security Suite (CGSS) combines enterprise security, productivity and support in a single solution. Available on SuperMassive Series appliances, it is the perfect solution for turning your customers' SonicWALLs into total security and productivity platforms. The Comprehensive Gateway Security Suite is available in one, two and three-year subscriptions that include the following: <ul style="list-style-type: none"> • Intrusion Prevention, Anti-Malware and Application Control • Content Filtering Service Premium Edition • Gold Support 24x7
Intrusion Prevention, Anti-Malware and Application Control		For SM 9200 (2 Years/3 Years) 01-SSC-4203/01-SSC-4204 For SM 9400 (2 Years/3 Years) 01-SSC-4167/01-SSC-4168 For SM 9600 (2 Years/3 Years) 01-SSC-4131/01-SSC-4132	Available on SonicWALL SuperMassive 9000 Series appliances, SonicWALL Intrusion Prevention, Anti-Malware and Application Control integrates gateway anti-virus, anti-spyware and intrusion prevention to deliver intelligent, real-time network security protection against a comprehensive array of dynamic threats including viruses, spyware, worms, Trojans and software vulnerabilities such as buffer overflows, as well as peer-to-peer and instant messenger applications, backdoor exploits, and other malicious code.
Enforced Client Anti-Virus and Anti-Spyware		5 users (1 Yr) McAfee 01-SSC-2743 10 users (1 Yr) McAfee 01-SSC-2740 25 users (1 Yr) McAfee 01-SSC-2745 50 users (1 Yr) McAfee 01-SSC-2741 100 users (1 Yr) McAfee 01-SSC-2742 Discounted two- and three-year clients available	SonicWALL Enforced Client Anti-Virus and Anti-Spyware provides comprehensive protection with little administrative overhead. Anti-virus and anti-spyware policies are automatically enforced network-wide whenever new threats appear. <ul style="list-style-type: none"> • Comprehensive virus and spyware protection using a single integrated client • Automated enforcement of virus and spyware protection policies • Automated deployments of anti-virus and anti-spyware definition and software updates • Full featured email attachment filtering
Secure Virtual Assist		Up to 1 Technician 01-SSC-5967 Up to 5 Technicians 01-SSC-5974 Up to 10 Technicians 01-SSC-5971 Up to 25 Technicians 01-SSC-5972	SonicWALL Secure Virtual Assist is a remote support tool that enables a technician to assume control of a customer's PC or laptop for the purpose of providing remote technical assistance. With the customer's permission, the technician can gain instant access to a computer using a Web browser, making it easy to diagnose and fix a problem remotely without the need for a pre-installed "fat" client.
Content Filtering Service Premium Business Edition		For SM 9200 (2 Years/3 Years) 01-SSC-4185/01-SSC-4186 For SM 9400 (2 Years/3 Years) 01-SSC-4149/01-SSC-4150 For SM 9600 (2 Years/3 Years) 01-SSC-4113/01-SSC-4114	SonicWALL Content Filtering Service Premium Edition enhances protection and productivity for businesses and schools by employing an innovative rating architecture utilizing a dynamic database of URLs, IPs and domains to block over 50 categories of objectionable Web content. An easy-to-use management interface provides network administrators with greater control to transparently enforce acceptable use policies.
Analyzer <i>Note: Also available as a Virtual Appliance</i>		For SM 9000 Series 01-SSC-3382	SonicWALL Analyzer is an easy-to-use web-based application traffic analytics and reporting tool that provides real-time and historical insight into the health, performance and security of the network. Analyzer supports SonicWALL firewalls, backup/recovery appliances, and secure remote access devices while leveraging application traffic analytics for security event reports.
Global Management System <i>Note: Also available as a Virtual Appliance</i>		5-node License 01-SSC-7680 10-node License 01-SSC-3363 25-node License 01-SSC-3311	The SonicWALL Global Management System (GMS™) provides organizations, distributed enterprises and service providers with a flexible, powerful and intuitive solution to centrally manage and rapidly deploy SonicWALL firewall, anti-spam, backup and recovery, and secure remote access solutions. SonicWALL GMS also provides centralized real-time monitoring, and comprehensive policy and compliance reporting.
Gold Support 24x7		Gold Support 24x7 SKUs by product Discounted two- and three-year contracts available	Gold Support 24x7 provides the advanced support features enterprise organizations need to keep their networks running reliably and securely. With Gold Support 24x7, you have around-the-clock access to seasoned support engineers and the latest firmware features plus Advance Exchange hardware replacement, all of which combine to protect and maximize your Dell SonicWALL investment. Includes: <ul style="list-style-type: none"> • Direct access to a team of seasoned Senior Support Engineers • Annual subscription to software and firmware updates and upgrades • Advance Exchange hardware replacement in the event of failure • Annual subscription to SonicWALL Service Bulletins and access to electronic support tools

Gateway Anti-Virus, Anti-Spyware, Intrusion Prevention Service and Application Intelligence, Control and Visualization		For NSA 5600 (2 Years/3 Years) 01-SSC-4241/01-SSC-4242 For NSA E6500 (2 Years/3 Years) 01-SSC-6138/01-SSC-6154 For NSA 6600 (2 Years/3 Years) 01-SSC-4217/01-SSC-4218 For NSA E8500 (2 Years/3 Years) 01-SSC-8941/01-SSC-8942 <i>Note: Gateway Anti-Virus is included in CGSS and TotalSecure</i>	Available on SonicWALL E-Class NSA Series appliances, SonicWALL Gateway Anti-Virus, Anti-Spyware, Intrusion Prevention Service and Application Intelligence, Control and Visualization integrates gateway anti-virus, anti-spyware and intrusion prevention to deliver intelligent, real-time network security protection against a comprehensive array of dynamic threats including viruses, spyware, worms, Trojans and software vulnerabilities such as buffer overflows, as well as peer-to-peer and instant messenger applications, backdoor exploits, and other malicious code.
Enforced Client Anti-Virus and Anti-Spyware		5 users (1 Yr) McAfee 01-SSC-2743 10 users (1 Yr) McAfee 01-SSC-2740 25 users (1 Yr) McAfee 01-SSC-2745 50 users (1 Yr) McAfee 01-SSC-2741 100 users (1 Yr) McAfee 01-SSC-2742 Discounted two- and three-year clients available	SonicWALL Enforced Client Anti-Virus and Anti-Spyware provides comprehensive protection with little administrative overhead. Anti-virus and anti-spyware policies are automatically enforced network-wide whenever new threats appear. <ul style="list-style-type: none"> • Comprehensive virus and spyware protection using a single integrated client • Automated enforcement of virus and spyware protection policies • Automated deployments of anti-virus and anti-spyware definition and software updates • Full featured email attachment filtering
Comprehensive Anti-Spam Service Note: Recommended for up to 250 users.		For NSA 5600 (2 Years/3 Years) 01-SSC-9010/01-SSC-9011 For NSA E6500 (2 Years/3 Years) 01-SSC-9013/01-SSC-9014 For NSA 6600 (2 Years/3 Years) 01-SSC-4229/01-SSC-4230 For NSA E8500 (2 Years/3 Years) 01-SSC-9019/01-SSC-9020	SonicWALL Comprehensive Anti-Spam Service adds powerful enterprise-class protection that can immediately improve network performance by eliminating spam, phishing and viruses from entering your network. With just one mouse click, you can enable advanced cloud-based inbound SMTP protection based on the same technology as in SonicWALL's award-winning line of Email Security software and appliances. Effective enough to be your primary anti-spam solution, or use in front of any existing anti-spam product as a first touch to reduce bandwidth consumption and improve security.
Secure Virtual Assist		Up to 1 Technician 01-SSC-5967 Up to 5 Technicians 01-SSC-5974 Up to 10 Technicians 01-SSC-5971 Up to 25 Technicians 01-SSC-5972	SonicWALL Secure Virtual Assist is a remote support tool that enables a technician to assume control of a customer's PC or laptop for the purpose of providing remote technical assistance. With the customer's permission, the technician can gain instant access to a computer using a Web browser, making it easy to diagnose and fix a problem remotely without the need for a pre-installed "fat" client.
Content Filtering Service Premium Edition		For NSA 5600 (2 Years/3 Years) 01-SSC-4247/01-SSC-4248 For NSA E6500 (2 Years/3 Years) 01-SSC-7337/01-SSC-7344 For NSA 6600 (2 Years/3 Years) 01-SSC-4223/01-SSC-4224 For NSA E8510 (2 Years/3 Years) 01-SSC-9269/01-SSC-9270	SonicWALL Content Filtering Service Premium Edition for the E-Class NSA Series enhances protection and productivity for businesses and schools by employing an innovative rating architecture utilizing a dynamic database of URLs, IPs and domains to block over 50 categories of objectionable Web content. An easy-to-use management interface provides network administrators with greater control to transparently enforce acceptable use policies.
Analyzer <i>Note: Also available as a Virtual Appliance</i>		For NSA 5600/6600 and E-Class NSA Series 01-SSC-3382	SonicWALL Analyzer is an easy-to-use web-based application traffic analytics and reporting tool that provides real-time and historical insight into the health, performance and security of the network. Analyzer supports SonicWALL firewalls, backup/recovery appliances, and secure remote access devices while leveraging application traffic analytics for security event reports.
Global Management System <i>Note: Also available as a Virtual Appliance</i>		5-node License 01-SSC-7680 10-node License 01-SSC-3363 25-node License 01-SSC-3311	The SonicWALL Global Management System (GMST™) provides organizations, distributed enterprises and service providers with a flexible, powerful and intuitive solution to centrally manage and rapidly deploy SonicWALL firewall, anti-spam, backup and recovery, and secure remote access solutions. SonicWALL GMS also provides centralized real-time monitoring, and comprehensive policy and compliance reporting.

Security Services for NSA Series Solutions

Product		Part Numbers	Description
Comprehensive Gateway Security Suite		For NSA 220 (2 Years/3 Years) 01-SSC-4649/01-SSC-4650 For NSA 250M (2 Years/3 Years) 01-SSC-4607/01-SSC-4608 For NSA 2400/MX (2 Years/3 Years) 01-SSC-9232/01-SSC-9239 For NSA 3600 (2 Years/3 Years) 01-SSC-4430/01-SSC-4431 For NSA 4600 (2 Years/3 Years) 01-SSC-4406/01-SSC-4407 <i>Note: TotalSecure solutions ship with one year of CGSS included</i>	SonicWALL Comprehensive Gateway Security Suite (CGSS) combines security, productivity, reporting and support in a single, low-cost solution. Available on all NSA Series appliances, it is the perfect solution for turning your customers' SonicWALLs into total security and productivity platforms. The Comprehensive Gateway Security Suite is available in one, two and three-year subscriptions that include the following: <ul style="list-style-type: none"> Gateway Anti-Virus, Anti-Spyware and Intrusion Prevention Service and Application Intelligence/Control Content Filtering Service Premium Edition Dynamic Support 24x7
Silver/Dynamic Support 8x5 and 24x7		Silver/Dynamic Support 8x5 Silver/Dynamic Support 24x7 SKUs by product SKUs by product Discounted two- and three-year contracts available	For customers who need continued protection through ongoing firmware updates and advanced technical support, SonicWALL Silver and Dynamic Support Services deliver the support features and quality of service that organizations require to keep their networks running smoothly and efficiently. These services include: <ul style="list-style-type: none"> Annual subscription to software and firmware updates and upgrades Access to telephone and Web-based support for installation, configuration and troubleshooting help Advance Exchange hardware replacement in the event of failure Annual subscription to SonicWALL Service Bulletins and access to electronic support tools
Gateway Anti-Virus, Anti-Spyware, Intrusion Prevention Service and Application Intelligence, Control and Visualization		For NSA 220 (2 Years/3 Years) 01-SSC-4613/01-SSC-4614 For NSA 250M (2 Years/3 Years) 01-SSC-4571/01-SSC-4572 For NSA 2400/MX (2 Years/3 Years) 01-SSC-6142/01-SSC-6158 For NSA 3600 (2 Years/3 Years) 01-SSC-4436/01-SSC-4437 For NSA 4600 (2 Years/3 Years) 01-SSC-4412/01-SSC-4413	SonicWALL Gateway Anti-Virus, Anti-Spyware, Intrusion Prevention Service and Application Intelligence, Control and Visualization integrates gateway anti-virus, anti-spyware and intrusion prevention to deliver intelligent, real-time network security protection against a comprehensive array of dynamic threats including viruses, spyware, worms, Trojans and software vulnerabilities such as buffer overflows, as well as peer-to-peer and instant messenger applications, backdoor exploits, and other malicious code.
Enforced Client Anti-Virus and Anti-Spyware		5 users (1 Yr) McAfee 01-SSC-2743 10 users (1 Yr) McAfee 01-SSC-2740 25 users (1 Yr) McAfee 01-SSC-2745 50 users (1 Yr) McAfee 01-SSC-2741 100 users (1 Yr) McAfee 01-SSC-2742 Discounted two- and three-year clients available	SonicWALL Enforced Client Anti-Virus and Anti-Spyware provides comprehensive protection with little administrative overhead. Anti-virus and anti-spyware policies are automatically enforced network-wide whenever new threats appear. <ul style="list-style-type: none"> Comprehensive virus and spyware protection using a single integrated client Automated enforcement of virus and spyware protection policies Automated deployments of anti-virus and anti-spyware definition and software updates Full featured email attachment filtering
Comprehensive Anti-Spam Service Note: Recommended for up to 250 users.		For NSA 220 (2 Years/3 Years) 01-SSC-4643/01-SSC-4644 For NSA 250M (2 Years/3 Years) 01-SSC-4601/01-SSC-4602 For NSA 2400/MX (2 Years/3 Years) 01-SSC-8998/01-SSC-8999 For NSA 3600 (2 Years/3 Years) 01-SSC-4448/01-SSC-4449 For NSA 4600 (2 Years/3 Years) 01-SSC-4424/01-SSC-4425	SonicWALL Comprehensive Anti-Spam Service adds powerful enterprise-class protection that can immediately improve network performance by eliminating spam, phishing and viruses from entering your network. With just one mouse click, you can enable advanced cloud-based inbound SMTP protection based on the same technology as in SonicWALL's award-winning line of Email Security software and appliances. Effective enough to be your primary anti-spam solution, or use in front of any existing anti-spam product as a first touch to reduce bandwidth consumption and improve security.
Secure Virtual Assist		Up to 1 Technician 01-SSC-5967 Up to 5 Technicians 01-SSC-5974 Up to 10 Technicians 01-SSC-5971 Up to 25 Technicians 01-SSC-5972	SonicWALL Secure Virtual Assist is a remote support tool that enables a technician to assume control of a customer's PC or laptop for the purpose of providing remote technical assistance. With the customer's permission, the technician can gain instant access to a computer using a Web browser, making it easy to diagnose and fix a problem remotely without the need for a pre-installed "fat" client.
Content Filtering Service Premium Edition		For NSA 220 (2 Years/3 Years) 01-SSC-4619/01-SSC-4620 For NSA 250M (2 Years/3 Years) 01-SSC-4577/01-SSC-4578 For NSA 2400/MX (2 Years/3 Years) 01-SSC-7341/01-SSC-7348 For NSA 3600 (2 Years/3 Years) 01-SSC-4442/01-SSC-4443 For NSA 4600 (2 Years/3 Years) 01-SSC-4418/01-SSC-4419	SonicWALL Content Filtering Service Premium Edition for the NSA Series enhances protection and productivity for businesses and schools by employing an innovative rating architecture utilizing a dynamic database of URLs, IPs and domains to block over 50 categories of objectionable Web content. An easy-to-use management interface provides network administrators with greater control to transparently enforce acceptable use policies.
Analyzer <i>Note: Also available as a Virtual Appliance</i>		For NSA 220/250M/2400 01-SSC-3379 For NSA 3600 01-SSC-3380 For NSA 4600 01-SSC-3381	SonicWALL Analyzer is an easy-to-use web-based application traffic analytics and reporting tool that provides real-time and historical insight into the health, performance and security of the network. Analyzer supports SonicWALL firewalls, backup/recovery appliances, and secure remote access devices while leveraging application traffic analytics for security event reports.
Global Management System <i>Note: Also available as a Virtual Appliance</i>		5-node License 01-SSC-7680 10-node License 01-SSC-3363 25-node License 01-SSC-3311	SonicWALL Global Management System (GMS™) provides organizations, distributed enterprises and service providers with a flexible, powerful and intuitive solution to centrally manage and rapidly deploy SonicWALL firewall, anti-spam, backup and recovery, and secure remote access solutions. SonicWALL GMS also provides centralized real-time monitoring, and comprehensive policy and compliance reporting.

Market Positioning and Specific Features	The SonicWALL WAN Acceleration Appliance (WXA) Series significantly enhances WAN application performance and improves the end user experience for small- to medium-sized organizations with remote and branch offices. After initial file transfer, the WXA solution dramatically reduces all subsequent traffic by transmitting only new or changed data across the network. Unlike standalone products, the WXA Series is an integrated add-on to SonicWALL E-Class NSA, NSA and TZ firewalls, thus simplifying deployment, configuration, routing and management. When deployed in conjunction with SonicWALL Application Intelligence and Control, the WXA Series offers the unique combined benefit of both prioritizing application traffic and minimizing traffic between sites.

Wireless Solution

Product	SonicPoint-Ni, SonicPoint-Ne and SonicPoint-N Dual-Radio Access Points	Power over Ethernet (PoE) Injector
Part Numbers	SonicPoint-Ni Dual-Band Bundle with PoE Injector 01-SSC-8576 SonicPoint-Ni Dual-Band Bundle without PoE Injector 01-SSC-8589 (4-pack) 01-SSC-8593 (8-pack) SonicPoint-Ne Dual-Band Bundle with PoE Injector 01-SSC-8578 SonicPoint-Ne Dual-Band Bundle without PoE Injector 01-SSC-8591 (4-pack) 01-SSC-8584 (8-pack) SonicPoint-N Dual-Radio Bundle with PoE Injector 01-SSC-9290 SonicPoint-N Dual-Radio Bundle without PoE Injector 01-SSC-9292 (4-pack) 01-SSC-9294 (8-pack)	01-SSC-5544 (802.3af Gigabit-N) 01-SSC-5545 (802.3at Gigabit-N)
Market Positioning and Specific Features	Compliant with the IEEE 802.11n standard, the SonicPoint-Ni, SonicPoint-Ne and SonicPoint-N Dual-Radio are dependent access points that provide secure wireless LAN connectivity to users on the network. Includes: <ul style="list-style-type: none"> Automatic provisioning from TZ, NSA and E-Class NSA Series Appliances* Support for multiple security options (WPA, WPA2, WEP, SSL VPN, IPSec) Support for up to 8 distinct SSIDs with distinct security policies using Virtual Access Points (VAP)** Multiple input, Multiple output technology (MIMO) IEEE 802.3af/at Power Over Ethernet receive capability*** Detachable antennas (SonicPoint-Ne and SonicPoint-N Dual-Radio only) Controllable LEDs (power excluded) and a plastic cover for LEDs and the logo for discreet installations such as hospital rooms Wall or Ceiling Mountable <p>* SonicPoint-Ni/SonicPoint-Ne requires SonicOS 5.6.0.3 or greater. SonicPoint-N Dual-Radio-N requires SonicOS 5.8 or greater. **Available on NSA 220/250M/240/2400/3500/4500/5000/E5500/E6500/E7500/E8500/E8510 running SonicOS 5.8 or greater ***SonicPoint-Ni and SonicPoint-N Dual-Band access points support PoE power only. SonicPoint-Ne Dual-Radio access points can also be powered directly through an AC adapter</p>	The SonicWALL PoE Injector is an IEEE 802.3af/at compliant power injector that detects the presence of PoE-compatible devices and "injects" the appropriate power into the data cable. Includes: <ul style="list-style-type: none"> Remote power feeding IEEE 802.3 compliant Advanced auto-sensing algorithm Interlocking <p><i>Note: SonicPoint-N Dual-Radio requires an 802.3at compliant PoE injector or switch</i></p>

Security solutions

SSL VPN for the Enterprise: SonicWALL Aventail

Product	SonicWALL Aventail SSL VPNs provide granular application access control by first detecting the security of the end point, protecting applications with granular policy based on who the user is and the endpoint used for access, and then connecting authorized employees and business partners effortlessly from a broad range of cross-platform devices only to authorized resources.							
Key Features	Detect what is running on the end point device. <ul style="list-style-type: none"> End Point Control provides interrogation of managed and non-managed devices prior to connecting and on a recurring schedule in order to detect the identity of the device and determine the overall trust level Cache Control purges browser cache, session history, cookies and passwords Secure Desktop offers advanced data protection technology that creates a virtual encrypted environment that prevents sensitive data from being left behind 		Protect applications with granular access control based on user identity and device integrity. <ul style="list-style-type: none"> Policy Zones provide administrators with the ability to easily create allow, deny and quarantine zones that govern access for all users and devices based on device identity and device integrity Unified Policy is the enforcement engine for protecting corporate resources, consolidating control of all Web resources, file shares and client/server resources in a single location, ensuring users only access authorized applications Secure Virtual Assist allows for remote help desk and troubleshooting functions to be supported directly from the SonicWALL Aventail appliance. Administrators can set up a "Request Assistance" button on WorkPlace, where users can request help from the organization's help desk and then the help desk can then request control of the user's device for troubleshooting purposes. 		Connect users easily and securely to applications across all device types. <ul style="list-style-type: none"> WorkPlace Portal provides users with a personalized and policy-driven Web portal providing easy access to Web and client/server applications from virtually any device or location Smart Access dynamically determines and deploys the appropriate access methods and endpoint interrogation within the WorkPlace portal based on the type of device used as well as user-level permissions Connect Tunnel provides the same endpoint control and access control options as the WorkPlace portal, with the only difference being that the user instead launches an agent directly from the device versus launching a portal Mobile Connect provides secure remote access to resources over an encrypted SSL VPN connection from Apple iOS and Google Android smartphones and tablets

Add-On Features (Optional)	<p>Secure Virtual Assist is a remote support tool that enables a technician to assume control of a customer's Windows, Mac or Linux-based PC or laptop for the purpose of providing remote technical assistance. With the customer's permission, the technician can gain instant access to a computer using a Web browser, making it easy to diagnose and fix a problem remotely without the need for a pre-installed "fat" client.</p>	<p>Secure Virtual Access is a remote PC control tool that enables authorized end users to gain secure remote access to their unattended Windows-based computers from anywhere.</p> <p>Secure Virtual Meeting is a collaboration tool that allows multiple participants to collaborate securely. Apart from host screen sharing, there is also the ability to participate in text chat and polling (voting) sessions.</p>	<p>Secure Virtual Assist/Virtual Access/Virtual Meeting</p> <ul style="list-style-type: none">Up To 1 Concurrent Technician: 01-SSC-5967Up To 5 Concurrent Technicians: 01-SSC-5974Up To 10 Concurrent Technicians: 01-SSC-5971Up To 25 Concurrent Technicians: 01-SSC-5972 <div></div>
	<p>Web Application Firewall (WAF) Service applies reverse proxy analysis of Layer 7 traffic against known signatures, denies access upon detecting Web application malware, and redirects users to an explanatory error page. SonicWALL WAF detects attacks such as Cross-Site Scripting (CSS), SQL Injection, Cross-Site Request Forgery (CSRF) and cookie tampering, to help attain PCI compliance. By preventing theft of credit card and SSN information, SonicWALL WAF can achieve Data Leak Protection (DLP). WAF custom rule chains provide the extra flexibility to follow positive or negative security model to detect custom pattern in HTTP(S) traffic. In addition to custom rules, Application Profiling can help monitor web traffic to build a dynamic model of protected applications and help suggest custom rules based on the same.</p>	<div></div>	<ul style="list-style-type: none">SRA 1600 Add-On Web Application Firewall (1 Year): 01-SSC-7153*SRA 4600 Add-On Web Application Firewall (1 Year): 01-SSC-7135*SRA Virtual Appliance Add-On Web Application Firewall (1 Year): 01-SSC-9185* <p>*2-Year and 3-Year SKUs available on price list</p>

Security solutions

Email Security - In 3 Easy Steps:

Step 1: Software/Appliance/Hosted

Software Platform

SonicWALL Email Security Software is for the organizations that desire an email security solution to run on their existing Windows 2003 or 2008 Server system.

Software – 01-SSC-6636

System Requirements – OS: Windows Server 2003 Server or 2008 Server; CPU: 2.66 GHz min.; RAM: 2 GB recommended; Hard Drive: 40 GB free space min.

Virtual Appliance Platform – 01-SSC-7636

For organizations that desire an email security solution to run in a VMware environment. System Requirements: VMware ESXi™ and ESX™ (version 4.0 and newer); Allocated Memory 2 GB; Appliance Disk Size 80 GB.

Appliance Platforms

SonicWALL Email Security Appliances come with the SonicWALL Email Security software pre-installed.

Appliance Models

ESA 3300 – 01-SSC-6607

2 GB RAM, 250 GB hard drive, Intel 2.0 GHz CPU

ESA 4300 – 01-SSC-6608

4 GB RAM, 2x 250 GB hard drive (RAID-1), Intel Dualcore 2.13 GHz CPU

ESA ES8300 – 01-SSC-6609

4 GB RAM, 4x750 GB HDD (RAID-5), Quadcore 2 GHz CPU

Hosted Platform

SonicWALL™ Hosted Email Security offers superior cloud-based protection from inbound and outbound threats including spam, phishing, zombie attacks and malware, while minimizing deployment, administration and bandwidth expense.

Hosted Email Security and Dynamic Support 24x7 (1 Yr)

10 Users	01-SSC-5030
25 Users	01-SSC-5033
50 Users	01-SSC-5036
100 Users	01-SSC-5039
250 Users	01-SSC-5042
500 Users	01-SSC-5045
750 Users	01-SSC-5057
1,000 Users	01-SSC-5048
2,000 Users	01-SSC-5051

Step 2: Add Email Protection

This required subscription activates features in the SonicWALL Email Security (SES) system, Appliance or Software, for up to the number of users purchased. This subscription comes with either 8x5 or 24x7 Dynamic Support services. *NOTE: Steps 2 and 3 are not required when selecting Hosted Email Security.*

Features

SonicWALL Email Protection subscription with Dynamic Support (8x5 or 24x7) provides threat protection for SonicWALL Email Security Software or Appliances. Includes:

- Anti-Spam, Anti-Phishing & Anti-Virus automatic updates from the SonicWALL GRID Network
- Software and firmware updates
- Phone-based support (8x5 or 24x7), Web-based support anytime
- RMA for the appliance - One (1) year warranty for repair or replacement of any defective product due to manufacturer's defects

User Packs

	8 x 5 Support	24 x 7 Support
25 user pack	01-SSC-6659	01-SSC-6669
50 user pack	01-SSC-6660	01-SSC-6670
100 user pack	01-SSC-6666	01-SSC-6676
250 user pack	01-SSC-6661	01-SSC-6671
500 user pack	01-SSC-6667	01-SSC-6677
750 user pack	01-SSC-6662	01-SSC-6672
1,000 user pack	01-SSC-6668	01-SSC-6678
2,000 user pack	01-SSC-6663	01-SSC-6673
5,000 user pack	01-SSC-6664	01-SSC-6674
10,000 user pack	01-SSC-6716	01-SSC-6730

User Packs can be quantity stacked to obtain the desired number of users for a given subscription, e.g. 75 users = 50 user pack + 25 user pack.

Step 3: Add Optional Protection

There are two optional subscriptions that can be added to SonicWALL Email Security systems. The number of users must be the same as the Email Protection subscription.

Email Compliance Subscription

Includes: Compliance Dictionaries, Attachment Scanning, Approval Boxes, Record ID matching, Archiving, Encryption and compliance reports

25 user pack	01-SSC-6639
50 user pack	01-SSC-6640
100 user pack	01-SSC-6646
250 user pack	01-SSC-6641
500 user pack	01-SSC-6627
750 user pack	01-SSC-6642
1,000 user pack	01-SSC-6648
2,000 user pack	01-SSC-6643
5,000 user pack	01-SSC-6644
10,000 user pack	01-SSC-6735

Anti-Virus Subscriptions

Includes: Signature updates, SonicWALL Time-Zero Anti-Virus and Zombie detection

25 user pack	01-SSC-6759
50 user pack	01-SSC-6760
100 user pack	01-SSC-6766
250 user pack	01-SSC-6761
500 user pack	01-SSC-6767
750 user pack	01-SSC-6762
1,000 user pack	01-SSC-6768
2,000 user pack	01-SSC-6763
5,000 user pack	01-SSC-6764
10,000 user pack	01-SSC-7562

Security solutions

Universal Management Appliance (UMA)

Product	E-Class UMA EM5000	How to Purchase														
Part Numbers	01-SSC-7665 Includes 10 node GMS Software License and 1-year Hardware Warranty															
Market Positioning and Specific Features	<p>The SonicWALL® E-Class Universal Management Appliance (UMA) EM5000 centralizes policy management, monitoring and reporting for multiple SonicWALL appliances. The EM5000 provides an easier way to configure, enforce and manage policies for SonicWALL firewall, anti-spam, backup and recovery, and secure remote access solutions, enhancing efficiency, availability, and ROI. The EM5000 simplifies and automates multi-level policy management, monitoring, and compliance reporting thereby reducing overhead and freeing resources for new revenue opportunities. The UMA EM5000 is ideal for deployments scaling from a few to thousands of SonicWALL appliances or services, in small-to-mid-enterprise, large enterprise, managed service provider, or IT consulting environments. Includes:</p> <ul style="list-style-type: none"> Unified policy management Comprehensive monitoring and automated alerting Intelligent reporting and activity visualization Real-time and historic next-generation syslog reporting Application traffic analytics Support for SonicWALL firewall, backup and recovery, secure remote access, and email security appliances Centralized logging for deep forensic analysis and remediation Secure, reliable and optimized hardware architecture Intuitive management dashboard Online and offline management capabilities High-availability services across multiple sites Web services, SNMP, and CLI based integration options 	<ol style="list-style-type: none"> Purchase appliance Add additional GMS node licenses as needed using the existing GMS software SKUs Add Support <ul style="list-style-type: none"> Use GMS software support SKUs Use Comprehensive GMS Support SKUs Use hardware warranty SKUs <p>Example: 60 Node Deployment</p> <table> <thead> <tr> <th>SKU</th><th>Description</th><th>Comments</th></tr> </thead> <tbody> <tr> <td>01-SSC-7665 Quantity: 1</td><td>Universal Management Appliance EM5000 with 10 Node GMS Software License</td><td>Base Hardware: comes with 10 nodes and includes one year of hardware warranty</td></tr> <tr> <td>01-SSC-3301 Quantity: 2</td><td>GMS 25 Node Software Upgrade</td><td>Increase node license by 50 to a total of 60</td></tr> <tr> <td>01-SSC-6514 Quantity: 1</td><td>GMS E-CLASS 24x7 Software Support for 10 Nodes (1 Year)</td><td rowspan="2">Support SKUs for the 60 software nodes provide support for the entire deployment, including the Appliance</td></tr> <tr> <td>01-SSC-3334 Quantity: 2</td><td>GMS E-CLASS 24x7 Software Support for 25 Nodes (1 Year)</td></tr> </tbody> </table>	SKU	Description	Comments	01-SSC-7665 Quantity: 1	Universal Management Appliance EM5000 with 10 Node GMS Software License	Base Hardware: comes with 10 nodes and includes one year of hardware warranty	01-SSC-3301 Quantity: 2	GMS 25 Node Software Upgrade	Increase node license by 50 to a total of 60	01-SSC-6514 Quantity: 1	GMS E-CLASS 24x7 Software Support for 10 Nodes (1 Year)	Support SKUs for the 60 software nodes provide support for the entire deployment, including the Appliance	01-SSC-3334 Quantity: 2	GMS E-CLASS 24x7 Software Support for 25 Nodes (1 Year)
